About Me

I'm a 3rd-year Computer Engineering student at Dokuz Eylül University. I love game development/design and developing apps to solve annoying problems. I force myself to create new challenges everyday with multiple projects that I enjoy and adore. I work well with new technologies because I am eager to learn therefore I learn them quicker.

EMRE UÇMAZ

Game/App Developer

Education

**Computer Engineering
Bachelor's Degree**
Dokuz Eylül University
2023-2027

Expertise

Game Design/Development
Full Stack Developing
Unity
OOP

Projects

Oct 2024
-
Feb 2025

TÜBİTAK, "Düşüncelerini Hafiflet!"

Solo Game Design/Development

- Conducted a research project (With Dr. Sila Derin) combining psychology and technology, utilizing programming to model behavior and analyze patterns. Showcased analytical and problem-solving skills. Earned right to get a scholarship from TÜBİTAK.

Nov
2024

DEUPOG - Jamination7

Lead Developer (Team of 2)

- A stealth-action game developed during a Game Jam within only 48 hours. Players experience the thrill of sneaking, strategizing, and making daring escapes. Highlights my skills in Unity, level design, and creating immersive gameplay. This game is also my first ever game I ever tried and did.

July 2025
-
Ongoing

UniHub - A Social Platform for University Communities

Full Stack Development

- Working with the wider development team.
- Manage website design, content, and SEO Marketing, Branding and Logo Design

September
2025

IZOTOP - Game Jam

Lead Developer (Another team of 2)

- Developed in 30 hours with a teammate, this Unity project is a rogue-lite local co-op game featuring fun mechanics and random events. Showcases rapid prototyping, teamwork, and creative design under tight time limits.
